Sp@mBOT

"Oops, must have been from a sketchy website you visited"

Why Hire Sp@mBOT?

You've come here for justice, or chaotic mockery, or just cause you wanna spice up your classroom or meeting room? I really don't care, your reasons, back story, sob story, or whatever you have done to lead you to our team however if you are looking for a chaotic way to get justice you should choose me!

Your targets misery will be swift and quite a show! My services can implement whatever spam you wish as a spam expert this can be anything from constant rick rolling, intimate images, jump scares, audio interruptions, pop ups re-directing them to a personal insult created for the drama of it all!

Your target will be my personal puppet of the show I will personalize to your hearts or what ever you call it wishes. Of course this is my stage so expect nothing but the finest show! Well the finest show within your budget ;)

Sp@mBOT's Services

1. Level One Spam: Slows down the targets computer when it is booted up, some intimate images pop up every couple days, nothing to cause alarm and cheap people would probably try their best to ignore it.

2. Level Two Spam: Slows down the targets computer when it is booted up and running to a more noticeable degree, some intimate images pop up every day at a random time, could pop up at an important business meeting, or classroom who knows? That's the fun part if you're part of the crowd of onlookers.

3. Level Three Spam: Targeted Attack! Some people you just really want to get back but not in a so criminal way but in a more ... entertaining way in level three, the spam can be sleeping undetected within the targets computer, with your orders the attack will happen! Grab some popcorn, sit down and watch the panic as the special package of spam unleashes its chaotic justice. :3 This however comes with a high price tag

Cosmic_lock&key

"Sorry Honey, your computer is under MY lock and key"

Why Hire Cosmic_lock&key?

You've come here here for encryption? To encrypt others hardware undetected? Or even want to encrypt some personal data? Then I am your hacker!

My skills for hacking into anyones computer and locking them out of incriminating information or evidence cannot be matched

I can even provide you with the key to reveal the files. Villian or Vigilante who is taking justice into their own hands by only hiring the best

I'm your hacker, I do listen to the reasoning and any information you wish to share though my loyalty is limited to our assignment is completed.

Please be aware that someone can hire me to do the same to you or undo the assignment as the new assignment is my priority, I am the best so I know that be heart breaking but unfortunately my bank account balance is made possible by my skillset and I am fully dedicated to my CURRENT assignment.

My skills can encrypt your computer, your targets computer without any one being the wiser. I can provide any key to open the information for you.

I am a professional, and our assignment will be carried out with swiftness and can have some fun after shocks! Vigilantes can have some assist on some evidence they know is on a computer to ensure the most powerful cant wiggle their way out of it! Of course if you need me to try to hide some evidence once you are afraid of the people coming too close to catching you I can also assist there as well.

I only take one assignment at a time so while my loyalty is only assignment thin if a sting needs to be done have no fear that I will not be working for both sides at the same time. So if you need to convict or save your skin better hire me before someone else does.

Cosmic_lock&key's Services

Level One Encryption; I encrypt the targeted computer, provide keys

Level Two Encryption; I encrypt the targeted computer, provide keys, this will be for more powerful targets

the assignment will be completed but it will need more care and time.

Level Three Encryption; Targeted Attack! You want to have someone to be captured for their misdeeds?

Know when their going to be investigated, their arrogance will be their undoing as I will wait until the assigned and agreed time to release their misdeeds. This however can also be used for a particular checkin you are fearful of.

The Librarian

"Who else but a Librarian but to find the information your looking for?"

Why Hire The Librarian?

Someone is using something to blackmail you? Or do you need blackmail on another? Or maybe want to just check on some target to ensure they are telling the truth? Not everyone is as truthful as they say, and who better to turn to in this case than a Librarian? If you indeed need something hard to find after you've tried for hours you know you need to ask for some assistance from your local Librarian.

The Librarian

"Who else but a Librarian but to find the information your looking for?"

Why Hire The Librarian?

Someone is using something to black mail you? Or do you need blackmail on another? Or maybe want to just check on some target to ensure they are telling the truth? Not everyone is as truthful as they say, and who better to turn to in this case than a Librarian? If you indeed need something hard to find after you've tried for hours you know you need to ask for some assistance from your local Librarian.

Your targets file can be hidden very well, especially someone with only malicious intent towards you. No worries because once hired I'll be in and out in no time to provide you with the requested information you need. Sit back and relax quietly while I do my job, and no they won't know where the file disappeared to but you will.

Your targets "blackmailing" actions can fire back in their faces when they have nothing to keep you their helpless lucky I find that watching their faces go pale as they realize they have nothing is quite enjoyable, with my services you'll be able to see that first hand.

The Librarian's Services

1. Level One Data Collection; Simple in and out job, I come with your requested information without them knowing I was even there.
2. Level Two Data Collection: A job with more than one requested information needed to be extracted, and a confirmation that that is indeed all they have on you.
3. Level Three Data Collection: Reversed Attack!
